Association of Textile, Apparel & Materials Professionals

Chemical Applications Interest Group Minutes of April 25, 2018 Committee Meeting William Garrett, Chair

The minutes from the November 2017 meeting were approved.

OLD BUSINESS

Report of CAIG Session for the 2018 International Conference

- Twelve papers were presented during three sessions of the conference along with four papers presented during the Herman & Myrtle Goldstein Student Paper Competition.
- Session topics were Coloration and Chemistry, H&M Goldstein Student Competition, Technologies to Achieve Comfort, Odor Control and Antimicrobial.

AATCC Future Leaders Award

- Maria Thiry briefly explained the Future Leaders Award to those in attendance that may have missed the presentation last November. Maria then presented the biographical information on each of the Future Leader Award candidates for the Chemical Applications Interest Group. The three candidates were Apurba Banerjee, Kiarash Arangdad, and Shahid Adeel.
- The voting members of CAIG present at the meeting unanimously elected Apurba Banarjee and Kiarash Arangdad as the Future Leader Award recipients for Chemical Application Interest Group.

NEW BUSINESS

Presentation

- Dr. Matthew J. Farrell, Cotton Incorporated, gave a presentation titled “Hydrogen Peroxide Bleaching of Cationic Cotton”. Matt presented the results of research done to establish a Peroxide Bleach procedure that provides adequate whiteness for PFD fabric without weakening the cationic fiber. Many questions from the audience were addressed.
- Nelson Hauser informed those in attendance about plans to create another symposium similar to the Coloration seminar held last September by RA87. Nelson petitioned those in attendance to consider joining the planning committee. Anyone interested can contact either Nelson, Barry Brady (Chair of RA87), or Buddy Garrett (Chair of CAIG).

With no further business, the meeting was adjourned.
