MINUTES

**2015 Fall AATCC Materials Interest Group Meeting
November 4, 2015 8:00 AM
Double Tree Hotel - RTP**

Haskell Beckham started the meeting on November 4, at 8:00 as Chair of MIG.

The meeting began without the submission/approval of minutes from the spring meeting since neither Haskell nor Robina were able to attend.

Haskell indicated the two year MIG Member At-Large term being held by Fred Cook held was up. Cook agreed to continue for a second two year term. Cook was approved for a second term as MIG Member-At-Large.

Nelson Houser presented a new subcommittee being formed to work on webinar and training sessions under the Education Advisory Board (EAB). This group will consist of two individuals from each interest group. Robina Hogan and Arvid Purushothoman agreed to participate. Arvid's contact information is

Arvid Purushothoman
Arvid.purushothoman@sontara.com
615-526-2160 (o)
615-428-5856 (c)

Haskell asked for new topics to be considered. None were presented.

The speaker for the MIG track was given by Emiel DenHartog, a NSCU professor. His topic was Outdoor Material Performance & Comfort Evaluation and Testing. This testing protocol encompasses fibers, material to model and then human field analysis. The center will be hosting a meeting in November to kick-off a program with objective to establish industry test standards. AATCC will be a part of this program. AATCC participant was not identified. Emiel will provide Maria Thiry with AATCC his presentation. His contact information is:

Emiel DenHartog
