

## Materials Interest Group

### MINUTES

April 25, 2018

The Meeting was held at 2:30 with 15 people attending.

A review of the AATCC IC MIG session was mentioned as being the being well attended. Also mentioned was the large audience for new fibers, but minimal for medical applications. As a result future IC presentations should not include medical sessions for a while. Peggy introduced the single concept program for the 2019 IC in Fort Worth with possible interest from NASA.

New business presented was the officer platform vote.

Robina was elected to continue as chair for 2019-2021. Ram was elected as At-Large-Member for 2019-2020. A solicitation to MIG members for Vice Chair position will be coordinated with Vie Fogg.. Four candidates for Future Leaders Award were submitted to MIG. Marie presented their backgrounds. A letter will go out to MIG members for a vote this summer to be able to reach the whole group. The four include Heather Shields, Kystal Moody, Rupesh Nawalakhe and Morgan Schanski.

Presentation on Monomers from HOSO was given by Dr Ping Li from Susmer on recent technology funded by NSF and United Soybean Board.

Submitted by: Robina Hogan, Chair MIG
